Mr. Coffey.

I agree with Bob and Bruce
that this is a frustrating
situation, but I don't think
that Bob's Para 4 proposal,
would accomplish the desired
result. I have a low-key
dialogue going with [redacted]
on the subject to acquaint
him with the problem — believe
it or not, he did not realize
there was a problem. Although
I can't say that these discussions
will bear fruit, I do think
that this is the best way
to approach the problem, i.e.
from within the C.S.

A fair percentage of this

is a successful venture,
since a good percentage
of Regulation and Notes
proposals deal with travel
and travel related matters.

I'd suggest that
you and I have an
informal discussion
with Bob and Bruce
on this subject coming
out of house, with a
best approach to
the resolution of the
problem.
